## Central High School for Pass Towns Favored by Trustees at Meeting Last Evening

Delegates Agreed That Children Would Benefit in Receiving Secondary Education—Inspector Gorman and Dr. Carpenter Make Preliminary Report on Two Days Survey of Schools

### Coleman Recommended as Best Location

Students Could be Transported by Rail from Towns and Thereby Avoid Uncertainties and Discomfort of Winter Travelling in Auto Transport

Following two days survey of schools in the towns of Bellevue, Hillcrest, Frank, Blairmore and Coleman by Dr. George Gorman, chief inspector of high schools, and Dr. W. G. Carpenter, head of Cal-technical institute, a meeting of trustees of the school districts was held at Blairmore last evening at which the consensus of opinion was that in order to meet the educational needs of the present day, and to cope with difficulties of carrying on high school courses in the individual schools, a central high school was necessary.

Inspector Gorman briefly reviewed efforts that were made ten years ago with the same object in view, and stated that if the trustees were sincere in their desire for a central high school, they must cast aside prejudice as to its location, and agree to being established where it would be of the greatest value and the most convenient for transportation. It was this rock on which the project had crashed ten years ago, and though he was willing to give all the time necessary if the trustees were sincere, he decided at the outset that if the same prejudices were to hinder its progress as before, it would be a waste of his and Dr. Carpenter's time to proceed further.

He stated that Coleman was the best point for the reason that transportation facilities could be used to the best advantage by having the students travel by train from the various towns and thereby ensure them travelling in comfort at all seasons, uncertainties of blocked roads and uncertainties of motor transport in winter would be avoided, and there was a greater element of safety than by using motor transport. He strongly advocated the use of the rail transport in this instance, as it would save school boards a lot of trouble and also expense in transporting students.

Dr. Carpenter gave a very interesting address on the brief survey he had made, and outlined the benefits that would result from a

central high school. He assured the trustees he would gladly do all he could to assist them in the establishment of a central high school.

W. H. Chappell, chairman of Blairmore trustees, was chairman, and Mr. Marshall of Hillcrest board was secretary of the meeting. A committee of one trustee from each district was appointed to confer with Inspector Gorman and Dr. Carpenter at the close of the meeting.

Dr. Carpenter gave the following statistics of high school attendance in the Pass schools, and the total attendance in each school.

	IX	X	XI	XII	H.S.	Att.
Coleman	31	20	18	4	73	584
Blairmore	23	17	17	0	57	444
Bellevue	24	21	11	1	57	394
Hillcrest	9	7	7	0	23	312
Frank	5	0	0	0	5	60

Total attendance of all schools 1794

Forth Coleman there were in attendance H. Snowden, chairman of Coleman trustees; Jas. Ford, secretary; J. M. Allan, J. Glen-dinning, trustees; Principal Hoyle, A. Cameron, W. Haysom, ex-chairmen of trustees; and J. O. C. McDonald.

The committee appointed to confer with Inspector Gorman and Dr. Carpenter is composed of H. Snowden, W. H. Chappell, M. Charette, Mr. Donkin of Frank and P. Haggerty of Hillcrest.

Some years ago great discussion took place on the establishment of a central technical and high school for the Pass towns, but it proved abortive, it is understood, because no agreement could be reached as to its location. Coleman stood out for its erection here, with Blairmore equally emphatic that it be erected there. At that time Mr. A. Cameron was chairman of Coleman school board, and his attitude was apparently approved by the majority here.

The reason Coleman advances its claims is that the school should be at this end of the Pass because

## Links with a Great Past

THE Hon. Barnaby Howard, little son of Lord Strathcona and descendant of the great Canadian who was one of the founders of the Canadian Pacific Railway, is here shown embracing the small daughter of the Hon. Mrs. Arthur Howard in Hyde Park, London, England. Both children are living links with the great past when one of the major events in the history of Canada was in the making.

transportation facilities are in its favor and it offers an excellent site which cannot be excelled in any of the towns. The west bound train arriving here daily at 8:30 a.m. would bring in students from all points east, and arrangements would be made with the railway company for their return at the close of the day. Coleman has a larger school population, a larger teaching staff, and already is giving instruction in first year university work.

The opinions of a number of Coleman citizens when asked this week by The Journal were decidedly in favor of every effort being made to put forward Coleman's claims, and re-affirming the stand taken when this proposal was discussed some years ago.

Civic pride between the two towns naturally is keen in a matter of this nature and Coleman is fully justified in taking the stand that its status in population justifies its claim, though transportation facilities constitute the most important factor.

### THE SALVATION ARMY

Captain Clifford Fowler and Lieut. Jacob Zoutendyk.

Sunday Services, 11 a.m. on Holiness meeting; 2:30 p.m. Sunday School; 7 p.m. Salvation meeting; 8:30 p.m. Band Festival in the Coleman Opera House.

### COMING EVENTS

(under this heading 12c a line)

On Saturday, March 29, the Ladies Guild of St. Alban's W.A. will hold a sale of work, pantry sale and a prize drawing in the K. P. hall. Tea will be served from 8 to 6 p.m., the admission being 25c.

The West Canadian Collieries Band will give a sacred musical programme in the opera house on Sunday, March 30, at 8:30 p.m. Songs of Sunday, "The Martyrs", and "The Hall-lush Chorus", are among the numbers that will be rendered by the band besides vocal and instrumental solos.

Here we are! The West Canadian Collieries Band in the Opera House on Sunday, March 30, at 8:30 p.m. A musical treat that will please any musical critic in the Pass. Be sure you are there. Proceeds for the Salvation Army.

### Tourist Third Cabin Popular

When first Tourist Third Cabin accommodation was introduced some few years ago, it was merely to meet a growing demand for middle class space, good, comfortable, and happy travel, to suit the pockets of a growing clientele, the younger generation, who travel, as part of their education.

During these last few years more and more people have been attracted to this Tourist Third Cabin accommodation, so that now it is easily the most popular method of travel across to Europe.

This Spring will see another great step towards meeting the demands of the travelling public, when the "Franconia" and "Carinthia" of the Cunard Line, famous as World Cruise ships, and in fact especially built for this class of travel, will be converted so as to carry Tourist Third Cabin passengers in the space now used for second class travellers.

During the last generation also Trans Atlantic travel has reached a stage of luxury and ease that was never dreamed of a decade ago, and this will not apply merely to those who travel first class, for the "Franconia" and "Carinthia" will have beds and hot and cold running water for their Tourist Third Cabin passengers.

### The Valley Among The Hills

Reprinted from the Lethbridge Herald

There's a trail that winds o'er the Sun Dance flat,  
From the prairie lands below,  
To a sheltered valley among the hills,

Near the mountains of the "Crow"—  
A little bit of the old time West,  
Mid scenes that still enthrall  
Those men who love the nomad's life  
And hear the "Loneland" call.

A little bit of the old time West,  
At the end of the Sun Dance Trail,  
Where man meets man in fellowship  
With a smile and a friendly hail;  
Where the blood red sun, at even-tide,  
Sinks behind the mountain range  
In a glory that glides the crested peaks

And a hush that is weird and strange.

A sheltered spot among the hills,  
Where soft chinook winds blow,  
And rivers dash, 'twixt rocky banks,  
Where pine and poplar grow.

The hillside decked with rose and thorn,  
The prairie gay in flower,  
And o'er this wild, enchanting scene  
The mighty mountains tower.

Though distant fields have ever green,  
And strange trails may allure,  
The beauties of a southern clime  
Compared with these are poor:  
The sheltered vale, the Sun Dance Trail,  
Where laughing waters flow,  
The willow bank, the canyon wall,  
The mountains of the Crow.

—A. L. FREEBAIN,  
Pincher Creek.

## No Progress on Miners Agreement

Union Representatives Request for District Agreement Discussed With Mine Managers

Representatives of the local unions met the general managers of the mines here Saturday with a request that an agreement be made to be uniform with agreements to be made in the entire Crow's Nest Pass district. At present each mining company has its own agreement with its employees, and these agreements expire on March 31.

It is reported that the mine managers are not in favor of making a district agreement, but will discuss individual agreements on the same lines as the agreements about to expire.

It was reported that a meeting was to be held of union representatives at Blairmore, to which the mine managers were invited.

### Mine Union Asks Insurgents' Reason

Indianapolis—The United Mine Workers of America on March 18 voted unanimously to run men all the leaders of the insurgent convention of the Union at Springfield, Ill., to appear before the international executive board to show cause why they should not be expelled from the union.

### Going to Big Valley

Mr. and Mrs. Fontana and family will leave on Saturday for Big Valley, Alta., after 22 years residence here. They leave with the good wishes of a large number of friends, and Mr. Fontana expects to visit here again in May when the annual convention will be held of the Order Independent Fier D'Italia, of which he is one of the Grand Lodge officers. He is going into the hotel business at Big Valley.

### ST. ALBAN'S CHURCH

Sunday, March 30, morning prayer at 11:15 a.m., by Rev. W. Barlow. Sunday school at 2:30 p.m. Choir practice at 7 p.m. Friday, March 28.

On Sunday evening Mr. Barlow will give an address on the missionary work of the church in the Yukon, and will relate some early experiences of the gold rush days, which should prove of interest. This will be at St. Luke's, Blairmore.

For

## Coleman Merchants Only

THERE'S money in Coleman. There are people plenty here to spend it. There's good business for you—IF YOU—the merchants of Coleman, join The Journal in keeping Coleman's business in Coleman.

Obtain the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your

local newspaper. The very next time a salesman from whom you order merchandise comes to your store, sell him on Coleman. Have him help in making known by local advertising the merits and values of the goods he wants you to sell.

Advertising in your local newspaper is read by the people you want to buy the goods you offer for sale.

## WORLD HAPPENINGS BRIEFLY TOLD

The newspaper Excelsior, one of Mexico City's leading dailies, has announced it will practically eliminate crime news from its columns.

Rt. Hon. Tom Shaw, secretary of state for war, told a questionnaire in the House of Commons that no British officer was shot for cowardice during the Great War.

President Hoover worked for the state of Arkansas, on a mineral survey, in 1895, at a monthly salary of \$40, records of the state geologist department show.

Locusts have created a grave situation in Jerusalem, and several immense swarms which have recently appeared in the vicinity of Jericho have brought a fresh menace.

Colonel Gustavo Leon, of the Mexican air force, is rapidly going ahead with plans for a one-stop flight from Mexico City to Paris, with New York as his intermediate point, early in May.

Fire sweeping through Sheritt-Gordon Mining Company boarding house at Sheritt, destroyed a \$20,000 structure, burned to death George McKenzie, aged 38, a mine worker, and seriously injured three men.

An official announcement says that 66 churches in Moscow and vicinity would be closed "upon demand of the people and public organizations." This is the largest number of churches ever closed by the Soviet government at one time.

At a meeting in Toronto, of Ontario members of the Canadian Press, proposals of the management for improving the character and volume of the service, particularly along the lines of a more intensive Canadian domestic coverage, were unanimously approved.

## NERVES WERE BAD Could Not Sleep

### Tired All Day Long

Miss Florence Coulter, Bark Lake, Ont., writes: "I was so tired all day long, and I could not sleep at night, and felt tired all day long."

"A neighbor came in to see me, one morning, and advised me to take

"The first box did me good and after the sixth box I was able to go back to my work."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### A Gateway To the North

Lakes and Waterways in the Alluring Hinterland That Lead to the Arctic Ocean

Prince Albert National Park in the province of Saskatchewan promises to become the most requested gateway to the waters of the northwestern hinterland of Canada as yet little known. Beyond park boundaries, to the north, west, and east, lie a succession of lakes and waterways, extending like the links of a silver chain for literally hundreds of miles on the northwest, finally reaching the waters of the Far North and the Arctic Ocean, and on the east, Hudson Bay.

Mrs. Pester: Are you sure this is a thoroughbred Boston terrier.

Mr. Pester: Reasonably sure. Why?

Mrs. Pester: 'Cause I tried him with a plate of beans and he turned up his nose at them.

### Makes Museum Thief-Proof

Super Burglar Alarm System Protects Metropolitan in New York

Installation of a super burglar alarm system in the New York Metropolitan Museum of Arts with its priceless treasures has made this famous institution thief-proof. It is believed by the museum trustees and the engineers who perfected the system.

Not only is the museum protected against actual theft, but any attempt to molest the treasured objects would result automatically in imprisoning the vandal within the walls of the museum.

According to authentic information, the system recently installed works like the nervous system of a human body. The instant anyone disturbs any of the protected objects, the electric "nerve" records in the "brain center" the exact point of trouble and also automatically sounds the alarm. This alarm is given through the medium of a galvanometer on the switchboard in the "watch room," where operators are on a 24-hour vigil. The galvanometer tells exactly where the attempted theft is taking place.

This is followed simultaneously by the signals of an automatic system of sirens placed secretly in various quarters throughout the museum. They in turn notify a trained staff of about 20 guards kept on duty at strategic points.

Colonel Gustavo Leon, of the Mexican air force, is rapidly going ahead with plans for a one-stop flight from Mexico City to Paris, with New York as his intermediate point, early in May.

Fire sweeping through Sheritt-Gordon Mining Company boarding house at Sheritt, destroyed a \$20,000 structure, burned to death George McKenzie, aged 38, a mine worker, and seriously injured three men.

An official announcement says that 66 churches in Moscow and vicinity would be closed "upon demand of the people and public organizations." This is the largest number of churches ever closed by the Soviet government at one time.

### Unknown History Makers

Hundreds Whose Words Live, Have Always Been Nameless

There are hundreds of people whose names we do not know, though their words have passed into history. There is the nameless, well-dressed woman, who, meeting Wordsworth walking by Loch Kathrine one fine evening, observed, "What, you are stepping westward?" She gave the poet the name for his poem, "Stepping Westward."

There is the watchman who passed under Pepy's window crying, "Past one of the clock, and a cold, frosty morning!"

There is the man who first invented the Preston fishermen's petition as he put out to sea, "Oh, God, do Thou help and guard me; the sea is so wide and my boat is so small."

And who was the poor dame who, when questioned by a kindly bishop, held up her dry crust and said, "I have all this, and faith?"

And there are, of course, all the unknowns whose words are sung and said around the world and will not pass away.

### Recipes For This Week

(By Betty Barclay)

#### MARSHMALLOW SALAD

4 oranges.  
2 bananas.  
1 cup marshmallows.  
½ cup cream.  
Yolks of 2 eggs.  
2 tablespoons sugar.  
2 tablespoons lemon juice.  
Sprinkling salt.  
1 cup fresh grated coconut.

Cut oranges into sections, slice bananas and cut marshmallows into quarters. Mix with dressing made by scalding cream and thickening it carefully with egg yolks, beaten until light with sugar. Cool dressing and add lemon juice and a light sprinkling of salt before adding fruit. Serve with coconut.

#### CARROT AND PEA DELIGHT

Boil two cups of cubed carrots until tender. Combine with one cup of cooked peas. Make a sauce of three tablespoons flour, three tablespoons butter or fat, one and a half cup milk, two teaspoons sugar, one-half teaspoon salt, and a dash of pepper. Add the cooked carrots and peas, reheat and serve very hot.

#### Women and Peace

Those millions of signatures taken to the naval conference in London, England, by the women of the world signifying their desire that war and vessels of war be abolished constitute a factor so momentous in world events that it cannot be slighted by the delegates who govern its deliberations. It long has been said that women usually get what they want. In this case it is a question of their getting the abolishment of something they do not want.

She: "I heard someone yell 'fowl'; where are the feathers?"  
He: "Oh, this game is between two picked teams."

One-fifth of the imports into New Zealand are from the United States.

### Rheumatism

Massaging the aching parts with Minard's brings comforting relief. Try it.

## WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headache, dizziness and biliousness surely follow. You must stimulate your liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists 25c and 75c red package.

## Sensible People Do Not Envy Millionaires

Money Is Useful But No One Needs

Statistics show that the United States has 40,000 millionaires and one man in the billion-dollar class. It is not likely that any other country in the world can show so many millionaires, and it is just as well to remember, be the man who is a man living and in his right mind needs a million dollars. That may strike some readers as an exaggerated statement, but it is not. He can't take a copper of it with him when he is through with this world, and the chances are that he will leave vast sums to his children, and money secured in that way has done more to spoil young folks than poverty ever did.

### Homestead Entries

Largest Number of Entries Made In Alberta During Month Of

January  
Homestead entries in the four western provinces during the month of January numbered 663 as compared with 761 for the same month last year. The one province to show an increase was British Columbia, which doubled last year's quota, at 51, compared with 24. Manitoba recorded 29, compared with 42 last year; Saskatchewan 305, compared with 309, and Alberta 378, compared with 386.

### Fur Farming in Manitoba

Two Hundred and Thirty Farms Now Operating in the Province

Fur farming in Manitoba is making big strides, the latest available figures showing 230 farms in the province as compared with 12 in 1925, and two in 1920. In the last fiscal year pelts to the value of \$1,286,537 were taken in the province, muskrats being the most numerous, numbering 248,004 with a value of \$285,204. The rest, in order of importance, were weasel, mink and wolf.

To the German scientist who has invented an honesty-testing machine we can only suggest that he patent his idea before somebody steals it.

Persians are taking up the piano, 60 instruments having been imported into the country last year.

## SUNDAY SCHOOL LESSON

MARCH 30

### HE WENT ABOUT DOING GOOD

Golden Text: "Unto us a child is born, unto us a son is given; and the government shall be upon His shoulder; and His name shall be called Wonderful, Counsellor, Mighty God, Everlasting Father, Prince of Peace."  
—Isaiah 9:6

Devotional Reading: John 10:1-16.

### A Summary of Christ's Ministry

Perhaps this, on the whole is the best summary of our Lord's earthly ministry. He went about doing good (Acts 10:38). In the three years of His public ministry He was so busy that He had no time to take His food. Some great artists have almost faded in our imagination the type of countenance which we now associate with Jesus; the central face of the Last Supper at Milan, for example, or Rembrandt's Jesus in the hundred grider print, "Healing the Sick," or Hoffman's Jesus in the Temple, that exquisite face. But we live no authentic face of Jesus, and probably all artists err in giving to Him a countenance too smooth and untroubled. His countenance must have borne the marks of anguish and sorrow, for, as a man of genius said, almost two hundred years ago, "When Christ was only thirty-two, those who saw His face said, 'He was a man of fifty.'" "Thou art not yet fifty" (John 8:57)—so much had life taken out of Him.

No great work is ever done easily. There were places where, we read, He could do no work because of something wanting in the circumstances, something wanting in the hearts of the people, wanting in the heart of the man for whom He was ready to do the great work. We read again that sometimes our Lord would groan in His spirit as though He were wrestling with some obstinate force which was pitting itself against His power. Nothing is done easily that Jesus did. It were Him out, so that again and again He retired to a lonely spot, there to lay open His soul to the energy of God.

He went about doing good. He looked about to do so where good might be done. We sometimes excuse ourselves because we think we have done all the good that is climatically necessary in the little place where we stand.

He went about doing good by His lips, by His hands, by Himself. The biggest thing a man can do for his age or for the world is himself to be good and to give himself away for some great thought or dream of faith.—Condensed from an Address by John A. Hutten.

He went about, they said,

In doing good.

He challenged men to follow,

If they would.

He knew no creed, nor system,

But to live

A life of loving service,

And to give.

To give of cheer and faith,

To give of love, and cheer,

To hear; to hope; to inspire;

The hurt to heal.

Give thou of life and love:

Meet thou the test:

Bid them that love and serve,

To join the quest.

—Hiram B. Harris.

### Eastern Fish For B.C.

Five million fish eggs of eastern whitefish have been received at the Dominion Hatchery at Nelson, B.C. Most of them will be placed in Kootenay Lake and the rest in Skeena Lake, this being the first time of any such introduction of whitefish in either lake.

### Some Interesting Exhibits

Remarkable Things Shown By Royal Society In London

One of the most interesting of the exhibits arranged by the Royal Society for its conversation in London, recently, was the Fabry-Perot Interferometer, lent by the National Physical Laboratory. By means of this apparatus measurements up to a millionth part of an inch can be obtained with accuracy, says an overseas paper.

Another instrument shown was the Brown artificial horizon, named after its inventor, Mr. S. G. Brown. The principal feature of this invention is a gyroscope fitted with a mirror, which turning at the rate of six thousand revolutions a minute, remains in a horizontal position irrespective of any external movement. The instrument is specially intended for taking altitudes of the sun at sea by sextants, or for obtaining the true horizontal when the weather conditions prevent the natural horizon from being seen.

Another invention which attracted much attention was the metachrome, an instrument with a wide range of use in decorative trades. A design, in outline, is first projected on to a screen, and then, by means of colored lenses in the apparatus each separate element in the pattern can be colored, and the colors changed at will until the desired effect is obtained. A modification of this instrument is contemplated for application to theatrical stage scenery.

### When Politeness Is Costly

Politeness costs nothing, says an adage. But it costs a lot according to a big skyscraper elevator man, who says that when a man removes his hat in an elevator, it takes up the space of half a passenger, amounting to extra cost of current in a year to \$25,000.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

barren. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### CHAPTER VI.—Continued

"There's nothing to be scared of," declared Grandma, "unless it's Sarah Bennett. Like as not she'll discover something wrong about you. She says the Wickfield girls are all 'provincial.' Jim told me so herself. I looked in the dictionary and it said that provincial means countrified and rude. Well! If Charmian looks countrified I wish you'd tell me so; but she's not rude. Her manners come from the Davises, and they all had a way with 'em even when they were poor than Job's turkey. Some day I'll tell Sarah Bennett what I think of her."

"I'll do it for you if ever I have the chance," replied the doctor with heart-warming sympathy. "And you needn't worry about your grand-daughter. I assure you there's nothing provincial in her make-up."

"Well, you ought to know," responded Grandma, "coming from a big place like Boeton. I guess my girls all right even."

Charmian had been an amused spectator of this scene, but now she interrupted with a gasp.

"Come, Grandma, you've talked me over thoroughly enough; and we must start along if I'm to be any use to Mrs. Merry. Your supper's all laid out on the kitchen table, and don't you dare to wash a single dish. Just leave them in the sink. I shan't be late; and if you need anything you can call up Doctor Howe, and he'll let me know."

"I shan't need anything," replied the old lady promptly. "You run

Is that table in the right place? Now I'll go after the grub."

"Be sure you don't forget the tea," called the old lady as he moved away. Jim turned, his face suddenly gloomy.

"Forgetting's not one of my habits, Grandma Davis," he said soberly. "There are times when I wish to thunder it was."

He was gone before Grandma could reply, but she closed her eyes a moment in an effort to get his meaning. When she opened them the Merry's Spits dog, Gypsey, was trotting along the sidewalk opposite carrying a huge ham bone, and in watching him hunt a place to lay it, Grandma forgot her helper till he appeared, bearing a well-loaded tray.

"He's buried it under Lizzie's Baker's lilac bush!" she exclaimed excitedly. "I declare, he's smart as a human being. Probably he's saving it for a rainy day. He's gone off toward the church again, thinking to get some more scraps soon likely."

"Scraps?" echoed J. B., puzzled, as he laid down his burden. "Who are you talking about? What's been buried under Miss Lizzie's lilac? You sound like an adventure story, Grand-pieces, you know, bringing pieces of plates."

Grandma chuckled. "It was a treasure all right, to him, Jimmy. I'm talking about the Merry's Gypsey. There's not a couter dog in town, and if you ask me, I'll say he knows a sight more than some of the Wickfield voters do. What's all this stuff for, sonny? I don't need two forks or—"

"Maybe not," replied Jim, a twinkle appearing in his brown eyes, "but I'm a conscientious objector on the subject of eating with my fingers—that is, when it can be avoided. There's plenty here for two, and—"

"You going to stay?" broke in Grandma, beaming.

"I thought if I listed plain enough that perhaps you'd do the rest," grinned Jim, and with a flourish he set a small, round shortcake in the centre of the table.

### CHAPTER VII.

"Well," exclaimed Grandma, as her self-invited guest drew up a chair and proceeded to pour the tea, "that is real cozy! It's not often that I have company when Charmian's away. She'll be surprised enough when I tell her I had the handsome young man in town to supper with me. Give me a drop more cream, Jimmy. This tea's so hot I can't drink it. Maybe you'd have had a better supper at church; but you can console yourself remembering that it's a kind deed to keep an old woman company."

"I didn't hint for that invitation in order to do any kind deed," replied Jim amiably, "but because I wanted to stay. You don't seem old to me, Grandma. Some ways you seem younger than Charmian."

To his surprise Grandma's face sobered.

"Sometimes I think I feel younger," she admitted. "Charmian's got too much responsibility on her shoulders—has had, ever since she was born. One thing, she works too hard; and there are times when she gets discouraged though she doesn't say so. The Davises never were folks to whine about things. They take life as it comes and make the best of it. I've sometimes thought that if Charmian only had the chance she'd be a poet, like her grandfather. When she was a little girl she wrote some real pretty verses about the first violet. But she's never had time to give to it as her grandfather had."

As he looked up at an ugly crack in the ceiling, it struck this practical young man that if Grandma Davis had given more time to the farm and less to poetry, his granddaughter wouldn't have to worry about finances. Not wishing to voice this thought he took a mouthful of bread and butter that made speech impossible; while Grandma, turning toward the window, said:

"There goes those summer folks from over South Wickfield way! Do you suppose they're going to the

Keep it this way

EAGLE BRAND CONDENSED MILK.

Keep awake with WRIGLEY'S Drowsiness is dangerous. Weary miles seem shorter and the day is brightened when you have WRIGLEY'S with you. Its sugar pepes you up. Its delicious flavor adds to any enjoyment.

A five cent package is safety insurance. Aid digestion, soothe nerves.

church? Last time they came the woman gave two dollars for a loaf of Emma's spice cake, though all they were asking for it was one-fifty. She wouldn't take the change; and she bought all Charmian's hodge and your mother's ginger cookies. It's a wonder, her folks weren't sick with all that sweet stuff in the house at once. Is it true that they're going to set off fireworks on the common after supper? Mrs. Merry told us they were thinking of it. I'd admire to see 'em. I've never seen all the fireworks I'd like to see."

(To Be Continued.)

### What's In An Initial

Employment Bureau Official At Montreal Has Queer Experience

What is the psychological difference between the people who are unemployed and those who are employed? This is a question which F. R. Clarke, manager of the Protestant employment bureau, at Montreal, is asking himself at present, for as far as the bureau is concerned, there is a very distinct difference.

Last year, in order to prepare for a bad winter, the bureau split the applicants for jobs into two groups. The A to L's were told to call on Mondays, Wednesdays and Saturdays, the M to Z's on Tuesdays, Thursdays and Fridays, the days being divided in this way after it had been proved that each lot of days would bring in approximately the same number of requests for men.

It was found, however, that although at the outset there were an equal number of men in the two groups, the M to Z group dwindled far more rapidly than the A to L group. If work was not found for them, they went out and hunted it for themselves, while the A to L's sat and waited for something to turn up.

After three weeks' notice, the bureau changed the sequence of the two groups and the A to L's were told to come on Tuesdays, Thursdays and Fridays, and M to Z's on Mondays, Wednesdays and Saturdays. In spite of this change, which might have provided a possible explanation of the situation, the M to Z group continued to grow smaller and smaller, because the men were finding steady jobs, while the A to L group remains more or less stationary.

### Still On the Increase

Figures Show Motor Traffic Taking Heavier Toll Each Year

And still the casualties due to automobile traffic go up! Figures compiled by the Travelers Insurance Company from thirty-seven States show that approximately 31,000 people were killed by automobiles last year—an increase of more than eleven per cent. over the figures for 1928.

"On the basis of last year's total number of motor vehicle deaths," says a bulletin issued by the company, "at least two persons out of each 10,000 of the country's population were killed in such mishaps. Two hundred persons out of each 10,000, or a ratio of 1 out of each 50 persons, were injured, 60 of the 200 being hurt seriously."

Worms in children, if they be not attended to, cause convulsions, and often deafness. Worms Extremator will protect the children from these distressing afflictions.

### Battalions Perpetuated

The perpetuation of the 1st Canadian Mounted Rifles Battalion, C.E.F., jointly by the Manitoba Mounted Rifles and the Saskatchewan Mounted Rifles has been authorized, according to announcement by the Department of National Defence, Ottawa.

Minard's—60 Year Record of Success.

### Proves Ability To Drive Car

But Paris Authorities Reluctant To Grant License To Armless Man

The authorities of Paris have before them an unusual request, that a man both of whose forearms have been amputated as a result of wounds received in the war, be granted his license to drive a motor car.

M. Lattus, a school teacher in the centre of France, has brought his skill in using his artificial forearms to such a pitch that, having made certain adaptations to his car, he is perfectly able to drive it. Recently he presented himself for his test before the Paris authorities, and the examiner had to admit that he was a perfectly capable driver.

Nevertheless, he refused to grant a driving license without reference to higher officials. Friends having taken up his case, M. Lattus had proved his capacity, not only of driving along the country roads, but in the crowded streets of the French capital. Having shown what he could do in this way, he then took off his coat, jacked his car up, and changed the wheel as easily as any able-bodied man.

The police apparently regarded his case sympathetically, but, nevertheless demanded further tests.

### Present-Day Insecurity

The Merchant, the Farmer and the Laborer All Affected By Present Conditions

The most marked feature of present civilization is insecurity. This affects the small merchant and the farmer as well as the day laborer. Fear of loss of employment, of economic damage, of old age, for oneself and one's family, is so general that men live in a state of precarious anxiety. The orgy of the recent stock market is a natural product of a blind hope of finding some way of escape from a hemmed-in life. Where all is uncertain, why not take a chance of turning uncertainty to account? If I dwell upon the element of insecurity in modern life, it is because, in spite of all that is written about unemployment, its emotional and mental effect does not seem to have begun to receive the attention it deserves. It is hopeless to look for mental stability and integration when the economic bases of life are unsettled.—John Dewey.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best advertisement. If you suffer from asthma get this remedy at once. Send for a free trial of it. Write to Dr. J. D. Kellogg, 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Fool-Proof Blimp. Manufacture of a "fool proof" family blimp, costing \$1,000, is under way by Anton Helsen, war-time commander of German Zeppelins. The craft will be 95 feet long, with speed 75 miles an hour, and inflated with non-inflammable gas.

### Little Helps For This Week

"By works a man is justified, and not by faith only."—James 1: 24.

No answer comes to those that pray. And wait for stones to roll away. At God's command; He will not break the binding cords. Upon us laid.

If we depend on pleading words, And will not aid.

The great human duties are prayer and work—prayer for every needed blessing, and work to realize it—prayer, as though God must do the whole, and work, as though we must do it ourselves. These are the two poles of the great galactic battery.

—Ruswell Dwight Hitchcock.

### A SIMPLE TREATMENT FOR CHILDREN'S COLDS

Cold in the head is very common at this time of the year, especially in the very young. Neglect of a cold is prone to lead to serious consequences. To relieve all congestion of the system is the first step in treating a cold, whether in infants or adults. For the very young, Baby's Own Tablets are the ideal means of doing this. Containing no narcotics or other harmful drugs they soothe the child's fretfulness, relieve its suffering and ensure convalescence.

Baby's Own Tablets are without an equal for relieving indigestion, constipation and colic. They check diarrhoea; break up colds and simple fevers; promote health-giving sleep and make the dreaded teething period easy. The Tablets are the one medicine that a mother can give her little ones with perfect safety as they are guaranteed to be free from injurious drugs. They are sold by all reputable dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## NOTES AND COMMENTS

The Calgary Herald is becoming excited over the probability of the western air mail route being chartered via Lethbridge and the Crows Nest Pass to Vancouver, instead of from Medicine Hat via Calgary and the main line of the C.P.R. In the event of this being decided on, Calgary will be served by a branch service from Lethbridge.

Conditions, topographical and geographical, are undoubtedly far more favorable for the Crow route than the northern route. The distance is much less, aviators do not have to ascend to more than an average of 7,000 feet, and there is greater population to be served at intermediate points on the Crow route than from Calgary west.

Coleman might well become a point for air mail, to serve the four towns of Bellevue, Hillcrest, Blairmore and Coleman, and the local Board of Trade might use its influence and efforts in improving the landing field laid out last fall. People are apt to overlook the possibilities of this becoming a much more important industrial centre than it now is, and the establishment of a recognized airport would be a valuable asset.

A very important factor in the Crow route is that it is less perilous for aviators. Mountain flying is very treacherous and the element of safety must be considered, primarily for the men engaged in piloting the planes, and secondly for the regularity of the service. These are factors that must take precedence over merely local considerations, such as Calgary puts forward, in a trans-continental air mail service.

Down in Saskatchewan J. F. Bryant, K. C., minister of telephones, has been "making whoopee" since he was elected a member of the so-called co operative government. He has been instrumental in "lopping off" many Liberal heads formerly in the employ of the Government, including Dr. Mitchell, superintendent of the Mental Hospital at Weyburn, one of the prize jobs in the gift of the government. Now he has turned his attention to the Hon. Chas. Dunning, Federal finance minister, and formerly premier of Saskatchewan, whom he styles as "only a common financial muddler." Mr. Dunning replies "The people of Saskatchewan know me and they know Mr. Bryant. For the present I shall leave it at that." Jimmy Bryant usually played to the gallery, even when engaged before a judge and jury in criminal court cases, and he seems to still have the liking for this sort of thing.

"The greatest need of the day is confidence," states the Calgary Albertan in an editorial. "The man who will be the leader of his fellows when the great mercantile army marches again on the road that leads to prosperity is the man who is bold enough to strike out now." Roger Babson, the famous business authority, says:

"The time to advertise is when sales are hard—contrary to the general practice of advertising chiefly when business is good." Babson's thesis seems absurdly obvious when one comes to think of it. The show window should never be so bright and so attractive as when the buyers are unwilling.

"Picture, if you will, a crowded market place. The whole populace has gathered there and the goods are displayed for them to see. People are a little short of cash, it is true, but only a suggestion is needed to persuade them to buy. Yet is not one of these merchants in the market place of the world bold enough to ask a passer-by to trade with him? Babson is right—the time to advertise is when sales are hard to make."

The business man who is worth while, who commands the respect and goodwill of his fellows, is he who puts up the fight for business in good or dull times. People shun the man who is croaking about the town he lives in being no good, and there is more truth than fiction in the saying that "It isn't your town, it's you." Business depression is a common experience, and the cheerful attitude and determination to make the best of every day as it rolls around not only increases a man's self-respect but inspires confidence in others. Nobody loves a quitter. The battles of business life are won by those who rise above the common complaint that business is poor.

The wheat gambler, the man who mortgages his home, his furnishings, his wife's diamonds, his library, his dress suit to get money with which to gamble in wheat or stocks, he is the gentleman who now feels the pinch and who is causing all the so-called "business depression" talk. Many of his ilk have been stripped naked and will actually have to go to work soon to earn a living. Remember that it is the irresponsible gambler and not the farmer who howls—Bert Hoffman in The Market Examiner, Calgary.

LAUGHS GALORE IN  
"WIDE OPEN" LATEST  
HORTON COMEDY

There are by actual count 149 laughs in "Wide Open," the new Warner Bros. Vitaphone all-talking comedy, which opens tonight for the week end run at the Palace, with Edward Everett Horton in the featured male role.

This averages something over two laughs a minute. Some of them are giggles, many of them are chuckling chuckles, and fifty or sixty of them are rated as regular guffaws that exercise the diaphragm and break off buttons.

Horton accounts for more than half the laughs in "Wide Open" while Louise Fazenda probably runs next with a comedy role that seems ready made for her unique kind of clowning.

Patsy Ruth Miller, who has to carry a sympathetic lead as well as a part of the comedy burden, gets her full share of entertaining. Others in the cast are Edna Murphy, T. Roy Barnes, Frank Beal, Vincent Barnett, Lloyd Ingraham, Bobby Gordon, B.B.B., Louise Beaver, E. J. Ratcliffe and Vera Lewis.

The piece is based on the novel "The Narrow Street"

Alone but  
INDEPENDENT

How will you be fixed at 65? Like the old folks in the picture—bargy, contented and free from worry, with the retired income of a Last-Survivor Annuity payable as long as either of them lives? Or will you be compelled to struggle for your daily bread?

Any man or woman resident in Canada can buy an Annuity. A lump sum or small convenient installments, gives you a retiring income of from \$10 to \$5000 a year. And payment is as sure as the rising of the sun, for Annuities are backed by the resources of the entire Dominion and cannot be forfeited, stolen or seized by legal process. 1 Jar of Dyrson's Pickles and a Mixing Bowl for .85

## Gastronomes Foregather

"Le Diner des Gastronomes" or the dinner of the experts in food was held recently at the banquet room of the Place Viger Hotel, Montreal. The saying is that humanity is divided into two parts: those who eat to live and those who live to eat. Above lay-out shows the rarer variety, the gourmets who like their food daintily served and exquisitely chosen with rare vintages thrown in for good measure. The dinner was held under the auspices of the Chambre de Commerce Française and among the guests were the Comal-General of France, Edouard Cartier (centre of group); at his left, Hon. J. D. Bouchard, Speaker of the Quebec Parliament; and at his right, Alderman Leon Trepanier, leader of the Montreal City Council.

## Lord Atholstan's Message

(From the Hanna Herald)

A few days ago members of the Ontario Quebec division of the Canadian Weekly Newspaper Association were guests at a complimentary banquet given in Montreal by Lord Atholstan, president, and the staff of the Family Herald and Weekly Star of that city. The "country weekly" came in for some high praise from one of the Empire's greatest publishers, and no member of the association which was so signally honored by Lord Atholstan should feel that any excuse is required for presenting to his readers the complete text of this noted publisher's remark.

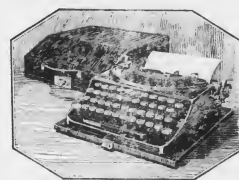

"To our Guests: I was delighted when your executive gave me an opportunity to invite you to dinner. I felt it was a great privilege, and now have to regret being unable to join, because my doctor will not suffer disobedience.

"The weekly paper is in many respects the backbone of the press of the country. It is far closer to the people whom it serves than a great city journal can possibly be. Its constituency is more stable. The cities have inevitably a large proportion of floating population. Even those who stay long are not securely rooted. A little brighter prospect somewhere else, and they are off. But the town and country population of Canada is its permanent and substantial foundation. The press which is in most intimate touch with its readers, is the press which most accurately voices the opinions and the conscience of the Dominion.

"Happily, the days of the hard-pressed country weekly are past. The owners of weekly papers are now among our shrewdest business men, and they make good money where their predecessors were supposed—at least by the humorists—to take cordwood and pumpkins for subscriptions. I hear of these more modern publishers spending their winters in Florida and buying up city dailies, and it is delightful to hear it. A good local paper well deserves all the support it can possibly get. No community ever makes a more profitable investment than when it maintains and keeps alive and independent its own weekly journal. I offer my best wishes for the continued success of the country newspapers."

"Atholstan"

Anyone can sell goods when there is plenty of money in circulation, but it requires energy and initiative to retain business when the available cash is very limited.

## Remington Portable Typewriter

would make a suitable Birthday gift to a high school student or those attending business college.

# Children Cry for it

Children hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and harmless as the recipe reads. (The wrapper tells you just what Castoria contains.)

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, use it to keep the system from clogging. Your doctor will tell you Castoria

deserves a place in the family medicine cabinet until your child is grown. He knows it is safe for the tiniest baby; effective for a boy in his teens. With this special children's remedy handy, you need never risk giving a boy a girl medicine meant for grown-ups. Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's signature.

## Britain's Playgrounds

Many Of World's Largest Parks Are Within the Empire

Within the confines of the British Empire are some of the biggest playgrounds in the world. Canada heads the list with no fewer than eight national parks, embracing an area of over 12,000 square miles, mostly situated in the Rocky Mountains amongst scenes of grandeur and beauty unsurpassed anywhere in the world. Jasper Park, in Northern Alberta, with an area of 4,517 square miles—two-thirds as big as Wales—is the largest of them. National playgrounds on a grand scale also constitute a feature in New Zealand. The two largest are the Tongariro National Park in the middle of the North Island, and the Fiordland National Park in the South Island. Fiordland Park, besides being one of the two largest in the world, incloses within its borders sounds, lakes, rivers, waterfalls, and mountain scenery of remarkable beauty and grandeur. One outstanding feature is "The World's Wonder Walk," winding through a series of stupendous canyons and majestic gorges from Lake Ta Anau to Milford Sound.

## WAS WEAK AND PALE

Health Restored Through the Use Of Dr. Williams' Pink Pills

Mrs. Leo Bedard, Quebec City, tells how her health and strength were restored through the use of that great blood-building tonic, Dr. Williams' Pink Pills. "Some three years ago, after the birth of my little boy, I was left very weak and pale, and did not seem to have any strength, and at times I was so dizzy I would nearly fall down. A friend advised me to try Dr. Williams' Pink Pills and I did so. In a few weeks I was surprised to notice the difference in my condition—I felt like a new woman. I continued taking the pills until I had used ten boxes, by which time I had completely regained my former health and strength. I feel that I cannot praise too highly Dr. Williams' Pink Pills for what they have done for me."

To the woman in the home—the woman closely confined through domestic duties—Dr. Williams' Pink Pills are a positive blessing. So if you are suffering from any condition due to poor, watery blood, or nervousness, begin taking Dr. Williams' Pink Pills now, and note how quickly your health will improve and your strength return. The pills are sold by all medicine dealers or will be sent by mail, 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

## Sugar In Liquid Form

American Experts Now Substitute Pipes For Usual Bags

To speed the time of delivery, sugar is now being distributed in Washington in liquid form through pipes instead of being handled by bags. At the refinery a gravity pipe conveys the liquid sugar to a tank or to truck and it is hauled to the buyer's plant, where it is pumped to a distributing tank. The system is the result of the discovery of a carbon of high purifying quality, making possible the production of a white syrup, as refined as granulated sugar, directly from the raw material.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

## Put To Many Uses

Common laundry soap will make bureau drawers and windows, inclined to stick, work smoothly. Rubbed on a nail, it keeps the wood through which the nail is driven, from splitting. Mixed with stove blacking it lessens the labor of applying and improves results, and if rubbed under and around the finger nail's before working with the blacking, the nails are easily cleaned.

## USES PINKHAM MEDICINES

Praises Vegetable Compound, Blood Medicine and Liver Pills

Birchtown, Quebec—"I live 13 miles from town on a farm, with all my home

There is nothing so slow about the British railways, as is evidenced by the cabled news that the Southern road has secured stock in and made arrangements with the Imperial Airways by which an air service may be maintained, which will avoid "wasteful and unnecessary competition between the two companies in air transportation."

London has forbidden the use of flags and banners in the streets for advertising.

Minard's Will Kill Corns.

## Core throats need this Double-Treatment

RUBBED on the throat, Vicks relieves in two direct ways:

(1) Its vapors, released by the body heat, are inhaled direct to the air passages; and

(2) At the same time Vicks "draws out" the soreness like an old-fashioned poultice.

**gets 2 ways at once**  
**VICKS**  
**3 VAPORUB**  
**OVER 12 MILLION LANS USED YEARLY**

## Requires Master Craftsmen

Mosaic Workers In Rome Are Skilled In Art

The Vatican mosaic works, one of the most unusual manufacturing plants in the world, are ready to consign to the Roman Catholic University, at Washington, D.C., their latest production, a copy of Murillo's "Immaculate Conception," valued at \$25,000.

Few tourists making the rounds of the Vatican galleries and St. Peter's, know of the existence of the mosaic. Yet, the shop is one of the oldest in Rome, and one of the best known in the art groups of Europe.

A visit to the plant is an education. Here one sees master craftsmen whose skill has been passed on to their apprentices. The artists and grandfathers who were artists in mosaic before them. They are men of infinite patience, in addition to their skill, for a mosaic may take from two to ten years to complete.

A few statistics help to explain the reason. When the visitor is told that there are actually 27,000 different colors or shades of color from which the mosaicists must choose, and also when he is told that thousands of small pieces of material, first heated to an intense degree, are later inserted one by one into special form, each one being chosen meticulously for its shade of color, he will begin to understand why. He has been known to require twenty years for completion.

**Excellent For Croupy Children.**—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat, chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

## Canadian Forest Products

The manufacture of silk of a quality in many respects superior to the product of the silkworm from Canadian spruce wood; linoleum, dynamite and gramophone records from a flour made of wood; newspaper print in a continuous sheet over twenty-two feet wide at the rate of over half an acre a minute from a single machine.—Handbook of Canada.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unclean stomach, but this is only a manifestation of their cleansing power, no indication that they are hurtful. They can be thoroughly depended upon to clear worms from the system.

## Honored First German Poetess

On February 9, 1930, Germany's women writers commemorated in Hamelin the 100th anniversary of the birth of Hroewitha, who, according to history, was the Faberian's first poetess. Offspring of a noble Saxon family, Hroewitha lived and died as a nun at the Gandersheim convent near Hamelin, the city of the Pied Piper.

## Saskatoon Civic Utilities

The water works department at Saskatoon shows a net surplus for the year 1929 of \$31,717.50, as compared with \$18,561.54 for 1928. The revenue for the year was \$214,241.16.

## Importance Of Fish Industry

Fish caught on the coasts of Canada in the Atlantic and Pacific oceans in 1929 totalled 1,024,221,000 pounds, valued at \$26,170,350.

## He—"I say just what I think."

She—"Oh, don't be silent all evening."

Minard's Kills Dandruff.

## Work Of Primitive Indians and Eskimos

Valuable Collection Of Articles Given To McGill University

One hundred articles made by the Eskimos and Indians of the Mackenzie River district have been given by Miss Yvonne Sutherland and Miss Margaret Sutherland, two Montreal ladies, to the Strathcona Ethnological Museum, at McGill University. The material to be known as the Forbes D. Sutherland collection.

Practically all the articles were made before the arrival of the white man, and show the height to which native art had attained in the manufacture of hunting knives, needles of bone and horn, bows, arrows, harpoons, fish-hooks of bone and horn, ivory models of canoes, pieces of highly decorated skin money used as tokens of payment between Indians and Eskimos, and scores of other articles used by the home and in hunting and fishing by the natives of the far north-western districts.

The collection includes a fish-net of willow root, which only two native women in the Mackenzie Delta, now, know how to make. Three old costumes, highly decorated, are also included in the collection.

## British Antarctic Expedition

Undertaking On Ambitious Scale Is Being Planned

A new British Antarctic expedition, the London Daily Herald says, is being organized under the leadership of Commander Frank Worsley, who was skipper of the "Endurance" in Shackleton's South Pole expedition. The paper said the expedition was to be on an ambitious scale and might include a number of men. It will cost in the neighborhood of \$25,000 (\$125,000) and will be both commercial and scientific in purpose.

Persian Balm—the unrivaled toilet requisite. Essential to every dainty woman. Imparts rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Cools and refreshes. Relieves roughness. Ideal for true feminine distinction. Delicately fragrant. Swiftly absorbed into the tissues, leaving no stickiness. Persian Balm creates a subtle elegance and charm.

## Traced By Airplane

Blackmailer In Germany Forgotten About Progress Of Detection Methods

An extraordinary attempt at blackmail by means of a carrier pigeon was frustrated recently. A man in Germany received a parcel containing a carrier pigeon and a letter, which stated that if he did not forward an appreciable sum of money by the pigeon within a given time he would meet a violent death. The blackmailer had not taken into consideration the latest developments of technical progress, and the pigeon was followed by a fast aeroplane and an aerial photograph taken of the place where it landed. The police had no difficulty in identifying the house of the sender. He proved to be an out-of-work miner from one of his intended victim's pits.

The volcano Mayon is called the Fujijama of the Philippines.

## 24 Hours Ends COLDS

You can send the soothing vapor of the pine woods, to the cause of your cold by inhaling Catarrhazone.

Little drops of healing balsams are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhazone works in bronchitis, catarrh, colds and irritable throat. You simply breathe its healing, fragrant vapor, and every trace of congestion and disease flees as before fire.

## Catarrhazone

A Ten-Minute Relief!

No trace of the disease remains after Catarrhazone is used—no more matter to clog the nostrils—no more headache and buzzing ears. Two months' treatment (guaranteed), price \$1.00; smaller size, 50c, at all dealers.

## Record For Panama Canal

Tolls Amounting To \$86,065 Were Collected In One Day

A new high record for the amount of tolls collected from traffic through the Panama Canal in one direction in one day was established on January 18, 1930, when \$86,065 was collected from fourteen ships transiting from the Pacific to the Atlantic. The list of vessels was headed by the steamer Virginia of Panama-Pacific Line, on which tolls amounting to \$15,210 were assessed. The average amount collected was \$6,190.35.

The previous high record for tolls collected on canal traffic in one direction was established on December 8, 1928, when \$86,274.78 was collected from twenty-two ships transiting from the Atlantic to the Pacific.

## Southern Alberta Beet Growers

Between 13,000 and 14,000 acres will be planted to sugar beets this spring, pursuant to an agreement made between the Southern Alberta Beet Growers Association and the Canadian Sugar Factories Limited, at Raymond, and the hope was expressed that some 80,000 tons of beets would be sliced this fall.

## Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality anilines money can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and washing.

Diamond Dyes never give things that re-dye! They are just 15c at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with makeshifts?

## Diamond Dyes Highest Quality for 50 Years

## The Latest Innovation

Electric Bulbs Frozen Into Ice At New York Skating Club

Skating on ice illuminated from incandescent bulbs frozen in the ice furnished a thrill to many at the Lake Placid Club this season. An 18-foot star, outlined with 150 low-watt yellow colored bulbs and the initials of the club in four-foot letters of red and green 25-watt bulbs in the center, has been frozen into the huge rink made by flooding the club's tennis courts. The light is reflected through the five inches of ice covering the bulbs much the same as through glass and present a most spectacular appearance.

An octagonal tower nine stories high erected at Nanking, China, in the fifteenth century was faced with porcelain.

If the world is a stage, the majority of people are merely scene-shifters.

## First Typewriter in England

Honor Of Owning Machine Claimed By Sir Alfred Yarrow

Who used the first typewriter in Britain? Sir Alfred Yarrow, the veteran shipbuilder of eighty-eight, claims the honor. "In the year 1876," he says, "Remington's sent over the first consignment of typewriters from America. A dozen of these machines were packed in a case, and when it was being lifted out of the ship it was dropped to the bottom of the dock, and remained in the mud for some time. The case was eventually raised, and, thinking that the machines would have suffered by their immersion, a friend and I bought them for a few shillings, as no one knew anything about them. I took one to my works, had it cleaned and oiled, and then the difficulty was to find someone to use it. Realizing that it required a person with sensitive fingers, I advertised for a shorthand-writer who could play the piano. A very clever young man applied for the job; I engaged him, and he remained in my employ until his death."

## British Not So Slow

There is nothing so slow about the British railways, as is evidenced by the cabled news that the Southern road has secured stock in and made arrangements with the Imperial Airways by which an air service may be maintained, which will avoid "wasteful and unnecessary competition between the two companies in air transportation."

London has forbidden the use of flags and banners in the streets for advertising.

Western Representatives: HUNTER-MARTIN & CO., REGINA, SASK.

## SASKATCHEWAN RESOURCES PACT NOW COMPLETED

Ottawa.—The agreement for the return of the natural resources to Saskatchewan has been signed, in Ottawa, Hon. Ernest Lapointe, Minister of Justice, and Hon. Charles Stewart, Minister of the Interior, affixed their signatures to a copy of the agreement, while in Regina Premier J. T. M. Anderson, and Hon. A. MacPherson, attorney-general, were to have signed.

The copies were then mailed from Ottawa to Regina and from Regina to Ottawa. The completing signatures will be affixed when they arrive at their destinations and the agreement will then be made public.

With the signing of the agreement with Saskatchewan, announced at Premier King's office, the return of natural resources to the western provinces is complete. Agreements have already been completed with Manitoba, Alberta and British Columbia.

While the details of the transfer are not to be made public until the documents have reached Regina and Ottawa respectively, Premier Mackenzie King had already announced that the same principles were followed as in the case of Alberta.

It is understood a commission will be appointed to deal with certain questions, the date to be chosen for the basis of payment will be decided by the Supreme Court of Canada.

The province has contended there is legal foundation for a claim extending back to 1870, as against the proposal that claims should be liquidated at 1905, when Saskatchewan entered into confederation.

## Germany Raises Wheat Duty

And Government Has Power To Raise It Further

Berlin.—Food Minister Dietrich has completed negotiations with the government parties concerning new duties on agricultural produce and passage of the new schedules is regarded as assured. The duty on wheat is to be raised to a possible maximum of 120 marks (about \$28.80) a ton instead of 95 marks.

The government will be authorized to raise it still further in case a sudden crisis should develop. It is expected that the duty on wheat in Canada and the United States should be thrown upon the open market.

Under the measure the duty on barley would be raised to a hundred marks a ton.

## Murdoch Is New Senator

Premier King Announces Appointment Of Former Minister Of Labor

Ottawa.—Hon. James Murdoch, former Minister of Labor in the King administration, has been appointed to the Senate. Announcement of the appointment was made by Premier W. L. Mackenzie King in the House of Commons.

"Other appointments to existing vacancies will be made in due course," the Premier said. The announcement came from the Premier by way of reply to a question propounded by R. B. Bennett, Conservative leader, a few days ago as to when the vacancies to the Upper Chamber would be filled.

### Canada's Power System

Ottawa, Ont.—In 1928 Canada had 18 hydro-electric power systems distributed from coast to coast. These systems have an average annual output of 100,000,000 kilowatt hours or more. The Hydro-Electric Power Commission of Ontario had an output exceeding four billion kilowatt hours each. These 18 systems account for 92 per cent of the total units generated in all central power systems of Canada.

### Had Narrow Escape

Cochimbo, Chile.—An automobile plunged into a 90-foot ravine near the town of Andacollo, turned over at least 12 times and crashed to a stop at the bottom—and none of the seven occupants was killed. Six were seriously injured and the other, a 4-year-old girl, slightly hurt. The motor car was demolished.

### Mrs. Kipling Indisposed

Hamilton, Bermuda.—The wife of Rudyard Kipling was taken to hospital for observation on the arrival of the famous poet and novelist here from the Bahamas. Her condition was not regarded as serious.

W. N. U. 1830

## League Society Holds Its Annual Meeting

Membership Of Canadian Branch Has Been Increased

Ottawa.—Representatives of organizations interested in promoting international peace from all parts of Canada, attended the eighth annual meeting of the League of Nations society in Canada here. The annual report of the executive showed progress had been made during the past year in extending the activities of the society and increasing the membership.

Dr. H. M. Tory, president of the society, was in the chair and the address on the league was given by Miss Agnes MacNeill. Sir George E. Foster led a discussion of the annual report. He stressed the importance of popular education on the ideals of the league. This was perhaps more difficult in Canada, with its scattered population, than in other countries. But it indicated the need of a vigorous organization and a continuance of the work of the society.

## SOLUTION MAY BE FOUND FOR NAVAL DEADLOCK

London, England.—That a way has been found to break the Franco-Italian deadlock over naval parity, a deadlock which threatened the very life of the five-power naval conference here, was indicated after a surprise meeting between Ramsay MacDonald, prime minister of Great Britain and Aristide Briand, foreign minister of France.

The two talked at French headquarters in the Hotel Carlton. Their conversation lasted two and a half hours, and after it M. Briand said: "We have been talking about means to bring the conference to a successful conclusion and we are going to apply those means as quickly as possible."

That the conference proved unexpectedly important was shown by the fact that Miss MacDonald had obviously been expecting a quick termination of the conference, and she waited for her father in the lobby during the entire two hours and a half.

M. Briand was cornered by a handful of newspapermen after the conference. He was an non-committal as usual about details, but was quite definite in saying that the situation had taken a new turn and that optimistic events were in the air.

"Always, when things seem at their worst, one finds a way out," he said. "That is what I am sure of."

He added his remark about applying means to make the conference successful.

Mr. MacDonald came from M. Briand's room with a smiling face and greeted his daughter in an unusually cheerful manner, but he declined to answer any questions.

The French leader in evading discussion of details, said: "I am in the habit of chattering too much and then I am reproached for it afterwards. We have been taking our bearings and our experts have been making the observations precise." This remark served to bring out the fact that René Massigli, French naval technician, and R. L. Craigie of the British technical staff, were present during part of the conversation.

M. Briand further conveyed the idea that his talk with Mr. MacDonald was concerned largely with practical figures instead of political aspects of the problem. Furthermore he said that besides conferring with M. Tardieu in Paris, he is to see the foreign affairs committee of the French senate.

### Berlin Churches Attacked

Berlin.—Communists were charged recently with attacks on church edifices in Berlin during the night. A Protestant church in north Berlin had a large illuminated Bible text over the door smashed. A Roman Catholic church was daubed with red paint inscriptions deriding religion. It was said here in despatches from Moscow that the anti-religious campaign would be extended to North America.

### Seize British Steamer

Norfolk, Va.—The British oil screw steamer "Dorothy and Audrey" was taken to Charleston, S.C., in convoy with a coast guard patrol boat, the crew of which had boarded the vessel and discovered 800 cases of liquor in the hold, a report from Charleston indicated.

### Australia Plans Tobacco Culture

Canberra, Aus.—A soil and plant survey is to be made by the Australian government with a view to introducing tobacco culture into the country. It is generally believed that soil and climate will prove favorable.

## Airmen Reach Churchill

Vanee and Bladslie Marooned In North Since Last October

Churchill, Man.—J. D. Vance, pilot for the Northern Aerial Mineral Explorations Limited, and his mechanic Bladslie, who were marooned in the far north many months ago, have reached Churchill. They mushed 500 miles from Baker Lake, a small station, and were accompanied from Chesterfield Inlet by "Bob" Hicks, of the Northern Aerial Exploration Company. The airmen were guided by two Eskimos, and had a dog train of three teams.

Despite the arduous tramp to the Bay Port, the airmen and their companions were in excellent health. With train service suspended to Churchill for the winter, the men still have a "walk" of more than 100 miles to reach Miss 327 where they can board a train for The Pas.

Participating in the aerial search for Col. C. D. H. MacAlpine, president of the Dominion Explorers, Limited, and his seven companions who were lost in Canada's northern Arctic regions for nearly two months, Vance and his companion were forced out of the hunt last October. A mishap to their plane after the MacAlpine rescuers headed northward, left them stranded at the isolated aerial post of Baker Lake.

Waiting favorable weather and trail conditions, the men suffered no hardship at the post, where there was a plentiful supply of provisions, and also a Hudson Bay trading post. After an unsuccessful start in December, the airmen waited another month and on January 2, accompanied by Indian guides with dog teams, got going again, reaching Chesterfield Inlet 13 days later.

After resting for a short time, they took to the trail that brought them to Churchill recently. In December the men were on the trail for two weeks, but fierce northern blizzards forced them to return to Baker Lake.

Vance, a veteran airman, is a resident of Toronto, while Bladslie, a youth of 21, is a Winnipeg boy, an experienced pilot and air engineer.

## To Visit Canada

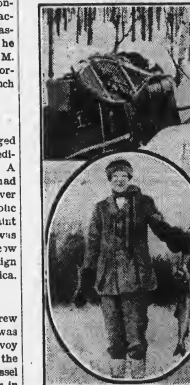

Train Of Fifty British Riflemen To Complete Here Next August

Ottawa, Ont.—A team of fifty English riflemen are expected to visit Canada this August to compete in the Dominion of Canada Rifle Association matches at Comnaught ranges. The team will be composed of competitors at the Bisley meet who can arrange to take the trip to Canada at their own expense. At the last D.R.A. meet, a number of cadets from the English public schools, members of the Officers' Training Corps, competed in the matches. A similar representation from the O.T.C. is expected this year. These announcements were made at the annual meeting of the D.C.R.A. which opened here.

### Ten Years At College

Minneapolis.—After spending 10 years at the University of Minnesota and earning three degrees, Thomas Rigor of the Philippine Islands, has left for his home to devote the rest of his life in the improvement of his country. The doctorate degree was conferred on Rigor, March 30. He already has earned degrees of bachelor of arts and master of science.

## Winter Lures This Lady

Midwinter in the Metamora region with deep snow and sub-zero weather proved too great an attraction for Lady Kitty Ritson, daughter of the Earl of Alirite, to pass up and she took Canadian Pacific train from Montreal to get there. An outdoor sportsman all her life, she has realized her desire to be attached to the great solitudes and the real nature. She fished through holes in the ice and picture shows what kind of sport she had. She mushed for miles through forest and plain behind her dog team and when the day was done she retired to rest in a log cabin made snug with stove against the bitter blast. Her ladyship says that she prefers Canada in winter to summer and certainly her adventures seem to prove it.

## YOUNGEST ADMIRAL

Rear-Admiral Gordon Campbell, V.C., D.S.O., youngest admiral in the British navy and first commander of the mystery ship, who is visiting Canada.

## India's Agitators Have Further Grievance

British Medical Council Refuses To Recognize University Degrees

New Delhi, India.—India's agitators have been given another opportunity to foster indignation against Britain by the cut refusal of the British Medical Council to recognize medical degrees of Indian universities.

British medical authorities have long been disatisfied with the training methods of certain universities in India. Many efforts have been made to achieve a degree of training which will win the approval of the council and enable Indian doctors to practice in Great Britain. The latest proposal, accepted and sponsored by the Government of India, provided for the appointment of a medical commissioner to ensure uniform training throughout India.

The Legislative Assembly, however, rejected the plan and not long after the assembly's action the medical council refused to recognize Indian degrees.

## Retain Canadian Nurses

Found Impossible To Replace 100 Nurses In Detroit Hospitals

Windsor, Ont.—Possibility that Canadian trained nurses, not citizens of United States, may be retained in service of the city of Detroit, in two hospitals, appeared at a meeting of the Detroit common council. The council was advised by Dr. Carl E. Buck, of the board of health, that it is found impossible to replace 100 nurses who would be discharged under the policy adopted by the council, despite the fact that advertisements had been sent to all parts of United States.

### Will Re-Open In April

The Pas, Man.—Train service, suspended during the winter months, will be resumed to Churchill about April 8. Passengers will be permitted to travel to the Bay port this year without permits.

## Restrictions Raised

On Reindeer Meat

Limited Supply Can Be Imported Without Inspection

Ottawa, Ont.—Reindeer meat may now enter Canada without restriction, under the provision of an order-in-council just passed on the recommendation of the Department of Agriculture. Up to the present time it was required to conform to the inspection requirements of other meat products but owing to the inaccessibility of reindeer herds in the remote sections of Alaska, inspection conditions are so difficult as to be impracticable.

Limited supplies of reindeer meat will under the new regulation, shortly appear in Canada through the cold storage terminals in New Westminster, B.C.

## CLOSER CHECK

WILL BE KEPT ON IMMIGRATION

Ottawa.—The steps taken by the Dominion Government in inviting the provinces to assume a larger share of responsibility in immigration matters was laid before the House of Commons by Hon. Charles Stewart, acting minister of immigration.

He explained that his deputy was taking up the proposal with the individual provinces. The new plans were dependent on the House ratifying the agreements by which the provinces of the west get back the crown lands and other natural resources.

The statement of Mr. Stewart came during a debate on a resolution offered by T. E. Donnelly (Liberal, Willow, Bunch), which carried will place the House on record as opposed to any assisted immigration "except in so far as financial assistance is at present being extended to female domestics."

An amendment of D. F. Kellner (U.F.A., Athabasca) would have gone further and made any company or other organization bringing in immigrants deposit \$1,000 with the province for each immigrant as guarantee against becoming a public charge. It proposed also to discontinue assistance to female domestics. The amendment was declared out of order by Mr. Speaker Lemieux.

Replying to an interjection, Mr. Stewart stated that present agreements of the Dominion Government with transportation companies will expire on May 31st. These "transportation company agreements" would not be renewed and the companies had been notified of this effect, he said.

"Under the proposed agreement with the provinces," Mr. Stewart declared, "we are asking them to assume the responsibility for saying how many and what kind of immigrants they are desirous of having and can absorb in any given year. We will not pass into Canada people destined to any province unless it is the desire of that province to receive them."

It is not the intention of this Government to prevent any individual in the British Isles or in northern Europe who is in a position to finance his passage and who has a reasonable sum of money in his possession to maintain himself when he arrives in this country from entering this country unless the provinces should say that they are not desirous of receiving such immigrants. Under such circumstances we would have to debate to that extent an individual entering into that province."

Mr. Stewart continued: "We are not thinking of continuing any assistance except that we have not yet arrived at a definite decision as to whether we should discontinue assistance to juveniles."

"That is the only case in regard to which we have not yet reached a definite decision."

The Dominion Government he went on, intended to continue to lend its auspices in the way of paying for the necessary number of officials to control immigration. "We must have officers at every port of entry into Canada," Mr. Stewart explained.

The minister could not conceive of any province "shutting the door" to immigration; but believed immigration would continue in accordance with the powers of absorption by the provinces.

### Bar Russian Wheat

London, England.—The Italian steamer "Confidanza" with a cargo of Russian grain bound for Rotterdam, was docked at Amsterdam because of a Dutch protest against the import of Russian produce, which members of the Netherlands agricultural board said had been seized from Russian farmers by the Soviet government.

## WANT IMPOSITION OF A HIGHER DUTY OF EGGS

Ottawa.—Canadian hens produce the finest eggs in the world, but heavy seasonal imports of eggs from the United States are disturbing the sensibility of their owners. The question of restricting imports increases in the tariff on eggs was argued before the Advisory Board on Tariff and Taxation, when the Application of the Canadian Poultry Pool, Limited, was heard.

The applicants asked for a duty of 9 cents a dozen on all foreign shell eggs entering Canada which do not comply with the specifications of Canadian extras. The Canadian extras, it was pointed out, were of such a high standard that no competition from abroad was feared. At the same time it was urged that the present fixed value on frozen eggs entering Canada should be at least maintained. The latter enter at an ad valorem duty while the duty on shell eggs is 3 cents a dozen.

The question revolved itself into whether the remedy proposed would have the desired effect. In a letter from the Canadian Council of Agriculture it was argued that the imposition of a higher duty would only have the effect of stimulating production in Canada with a lowering of the present high standard of Canadian eggs. The result would be the market would be glutted, prices would fall off owing to competition, leading to lay heavy eggs when they were of poorer quality.

The imports complained of occurred chiefly at the present season of the year when large quantities of eggs from Chicago were sent to Toronto and Montreal and offered for sale at prices as low as 27 cents a dozen for extras, when the cost of production was 40 cents a dozen. This was attributed, in part, to a desire on the part of someone to force down prices just before Canadian hens were beginning to lay heavily in the spring and eggs were being put in storage.

Owing to climatic conditions in Canada there was always a very heavy production during the summer and eggs had to be stored at considerable expense for winter use. The only production of any account during the winter months was in British Columbia and it was claimed, eggs from that province were being forced to compete with eggs from the present markets of eastern Canada from Chicago.

Another hearing is likely to be held.

## Passing Of Great Statesman

Tribute Is Paid To The Memory Of Lord Balfour

Woking, Surrey, England.—In a room of his brother's house, looking out to the peaceful English countryside he loved so much, Lord Balfour passed peacefully away.

He was a former prime minister of Great Britain and one of the last of the great Victorian statesmen. His last act was characteristic of his whole life.

Sending for his man-servant, James Coleman, who had been in his service 30 years, Lord Balfour took him by the hand and said:

"Good-bye, James. Thank you very much for all you have done for me."

Lord Balfour was 82 years old. He was created an early and Viscount Balfour after the Washington conference in 1921, and will be succeeded by his brother Gerald, in whose house he died.

The funeral was held at Lord Balfour's Scottish home at Whittingham.

Premier MacDonald, informed almost at once of the Earl's death, declared: "It is the end of a long, useful life, and the whole nation will unite in expressing its regret and in paying its tribute."

The Earl was 81 years old last July, and he played tennis right up to that birthday. A most notable characteristic was an almost unlimited capacity to remember. He frequently astonished friends with recollections of the most trivial incidents in his long career.

### Want Smarter Uniforms

London, England.—Smarter uniforms for the army were urged by one member of the House of Commons when a questioner brought last year's decline in recruiting to the attention of the House. Another parliamentary advanced the idea that the whole army should be put into kilts as a means of attracting the favorable eye of youth.

## Personal and Local

Born—March 19, to Mr. and Mrs. W. Pollak, of West Coleman, twins.

Mr. Alex Cameron was a business visitor to Calgary during the week.

R. Laetle is at present in Calgary meeting the representatives of the leading Millinery houses of Montreal, Toronto and Seattle. Watch for announcement in the next issue of this paper.

The Journal is 100 per cent. behind any publicity work for the benefit of the community.

Mr. G. R. Powell was seized with an attack of pneumonia on Friday last, and has been under the care of Dr. Borden since, with Nurse Archer in attendance.

Support the Salvation Army in its splendid work by buying a ticket for the band concert in the Opera house on Sunday evening at 8.30. The West Canadian Band will give a fine program, and several singers will give selections.

V. A. Bowes, assistant district passenger agent, C.P.R., was in town on Tuesday and with C. W. McKinnon, called on a number of the business men.

Mr. Melville Anderson, of Anderson & McLean, eight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, April 8th. 20 years experience in regular visits assures you of satisfaction in all optical work.

The Rev. Mr. Gunn, representing the Provincial Red Cross Association, addressed the children at West Coleman school on Friday afternoon. There is a very energetic branch of the Junior Red Cross among the children there, under the direction of Miss Yuill, principal of the school, and they have accomplished some useful work. It is hoped that a report on their activities during the year will be published later.

"Not the least honored of our Governors-General, the Duke of Connaught, was once asked to lend his support toward the abolition of cadet training, the argument advanced to him was, of course, that it promoted 'militarism.' For answer he confessed his ignorance of the exact meaning of the word but if it taught boys to stand straight and say 'Sir' to their elders, he thought there should be more of it.—Calgary Albertan.

pummel neighbor's knees in paroxysms of mirth.

3. Only those with aisle seats are allowed to roll off. All others must laugh on their own premises.

4. Ushers will provide liquid refreshments for those who acquire laughing hiccoughs.

5. Crying-laughers will kindly bring handkerchiefs as sob absorbers.

6. High tenor laughs will be moved—with their owners—to a reserved section of the theatre where they will not disturb others.

7. Titters are taboo. Titters will have their money refunded.

### IN MEMORIAM

In loving memory of our dear mother, Mrs. Annie Johnston, who died on March 25th, 1924;

Peaceful be thy rest, dear mother, It is sweet to breathe thy name;

In life we loved you dearly,

In death we do the same.

Ever remembered by her daughter, son-in-law, and grand children, Mr. and Mrs. J. Plante and family.

## Tenders

Coleman Branch will accept tenders for the purchase of a suitable building for club purposes.

Tenderers should state size of building, amount of floor space, how heated, and terms of sale, not later than March 30.

Address written replies only to

H. T. HALLIWELL,  
Chairman of Building Committee

## SCOUT NEWS

Come On Out!

It is expected that the new uniforms for the Scouts will be here in about two weeks, and the presentation of badges to those who have passed the Tenderfoot tests will be made to them by Mr. O. E. S. Whiteside, honorary president. The troop will in all probability arrange a supper for the occasion, to which their parents will be invited.

Elmo Fontana was presented by the Boy Scouts with a fountain pen, as a token of good fellowship, on his leaving for Big Valley.

Dr. J. W. Robertson, L.L.D., C.M.G., chief commissioner of the Boy Scouts of Canada, died at his home in Ottawa on March 19.

As a lad of 18 he came from Ayrshire, Scotland, to Middlesex County, Ont. in 1875. His youthful ambitions tended in the direction of the study of medicine, but the family's circumstances did not permit of this, and the boy, casting about for some other means of livelihood, was attracted to dairying. His first employment was in an Oxford County cheese factory at a wage of \$13 a month.

In 1919, at the request of the Duke of Devonshire, then governor-general, he accepted the office of Chief Commissioner of the Boy Scouts Association of Canada, and this, together with his manifold activities in connection with the Red Cross, engaged much of his time in later years. It was in his earlier career that he had been mainly responsible for establishing in Canada the Victorian Order of Nurses.

Dr. Robertson married Jennie, daughter of John Mather, of Ottawa, in 1896.

Laugh Protection for Patrons of "Wide Open"

The management of the Palace, where, "Wide Open," the new Warner Bros. comedy will open to-night, urges its patrons to observe the following suggestions:

1. Ladies not immune from the giggles should bring smelling salts.  
2. Patrons are urged not to
